Dear Paul:

Please allow me to recognize the exceptional level of service and quality of construction that I have received from your firm on my master bathroom remodel. Your design ideas and explanations of what I needed to visualize in the final project were extremely accurate.

I appreciate how your team performed well in my expedited time table and completed tasks on schedule. Additionally, the costs that were above the initial figures were explained to me ahead of time and were very reasonable in order to complete the work that I requested.

My wife and I are thoroughly enjoying our newly remodeled master bath and would not hesitate recommending you to any of your potential customers.

Sincerely,

Reggie Bethiaume
